WARNINGS & CAUTIONS

KEEP OUT OF REACH OF CHILDREN. DO NOT USE IN CHILDREN 12 YEARS
OF AGE OR LESS. IRRITANT. FLAMMABLE. AVOID CONTACT WITH EYES.

- Only use the product after consulting your dentist or doctor, especially if you have sensitive teeth or infected gums.
- People who suffer from gum disease should not use this product.
- Do not apply within 2 weeks before or after a dental treatment.
- If irritation (such as redness, swelling, soreness) of the gums or the mouth occurs, discontinue use and consult a dentist.
- Use for periods of longer than 14 days is to be only under the supervision of a dentist.
- Avoid contact of the Accelerator Mouth Rinse and Premium Whitening Gel with the eyes and direct contact of the Premium Whitening Gel with the gums and/or salivary flow.
- Do not swallow more than the necessary amount required for whitening. If more is swallowed than necessary do not induce vomiting.
- If the gel gets into the eyes hold the eyelids apart and flush continuously with running water. Continue flushing until advised to stop by the Poisons Information Centre, or a doctor, or for at least 15 minutes.
- Do not use this product if you are allergic to any of the ingredients, or if any of the medications you are taking could react with these ingredients. If in doubt about allergic reactions, check with your dentist or doctor.
- If you are pregnant, do not use this product without first consulting your doctor.
- If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.
- Avoid spilling the Premium Whitening Gel on fabric, clothing or furniture as it may discolour them.
- Store the Premium Whitening Gel and Accelerator Mouth rinse in a cool place away from heat.

FIRST AID:

For advice, contact the Poisons Information Centre.
Australia Ph. 13 11 26 NZ Ph. 0800 764 766

Storage Instructions

Store upright in a cool place (below 25°C), away from heat. Replace the cap promptly after use and close tightly.

INSTRUCTIONS FOR USE

FREQUENTLY ASKED QUESTIONS

Be sure to brush and floss your teeth before using Pearl Drops 2 Day White. With Pearl Drops 2 Day White you have the flexibility to whiten to suit your schedule.

STEP 1: Rinse with Accelerator Mouth Rinse

Measure out 1 tablespoon of the rinse, or enough to coat the front teeth when swishing.

Rinse for 10 seconds, making sure to swish around your front teeth. Spit and rinse out into the sink.

STEP 2: Paint each tooth with Premium Whitening Gel

Shake the closed Gel bottle for 3-5 seconds, then remove the cap and gently squeeze the bottle to release the Gel onto the brush. Focusing on your "smile teeth", the front six teeth on the top and bottom of your mouth, apply the gel to one tooth at a time. Make sure to release more Gel as needed to liberally cover each tooth and try to avoid getting the Gel on your gums, lips or tongue.

Allow 30 seconds for the Gel to dry on your teeth before allowing your lips or tongue to touch your teeth.

Wait 10 minutes for the Premium Whitening Gel to fight stains and whiten teeth. For best results do not eat, drink or smoke for 20 minutes, to allow the active whitening ingredients time to work.

WHITENING SCHEDULE

Repeat steps 1-2 for a total of 12 treatments by choosing either schedule below:-

1. Complete four treatments per day, such as two in the morning and two in the evening, over 3 days; OR
2. Complete one treatment in the morning and one in the evening for 6 days.

DO NOT COMPLETE ALL 12 TREATMENTS IN 1 DAY.

How does 2 Day White work?

The Accelerator Mouth Rinse moderates the mouth's pH balance to prepare teeth for the whitening process. The application of the Super Whitener Gel allows for active peroxide, the same whitening ingredient used by dentists, to begin whitening surface and deep stains on your teeth.

Do I have to use the rinse in between every treatment?

The rinse is necessary between cycles to remove the old layer of Super Whitener Gel. Because the Gel becomes inactive after sitting on your teeth for 10 minutes, you'll want to remove it to re-apply a new layer of active Gel for the next cycle.

How quickly will I see results?

For full whitening experience we recommend you complete all 12 whitening treatments by choosing the schedule that best suits you. You will begin seeing visibly whiter teeth in as little as 2 days.

Do I have to do all the applications at one time?

No, 2 Day White is designed to be convenient. You can do as little as 1 treatment a day. Just be sure to complete all 12 treatments for complete results.

DO NOT COMPLETE ALL 12 TREATMENTS IN 1 DAY.

Is 2 Day White safe on my teeth and dental work?

2 Day White is clinically proven to be enamel safe. While 2 Day White is completely safe for dental restorations like crowns, caps and veneers, it will only whiten natural teeth. Your dental work will not whiten with 2 Day White.

How much Premium Whitener Gel do I use, and is it safe to reuse?

You should liberally apply the Gel to your teeth to ensure full coverage. Because the Gel contains anti-microbial ingredients, it will kill germs on the brush and is safe to reuse. However, we do not recommend sharing the Gel with another person.

What happens if the gel is swallowed accidentally?

The product is harmless if you follow the instructions. To swallow a small amount of gel is not a problem if you follow the recommended instructions carefully. Do not use more than the recommended dose. For advice, contact poisons information centre. Australia Ph: 13 11 26, NZ Ph: 0800 764 766.

What happens if the gel gets into the eyes?

Hold the eyelids apart and flush continuously with running water. Continue flushing until advised to stop by the Poisons Information Centre, or a doctor, or for at least 15 minutes.

What happens if the gel gets on clothing or other surfaces?

The gel may lighten colours of clothing and other surfaces. Always apply the gel carefully and follow the instructions. Protect your clothes and other surfaces by washing your hands after each application.

Is it safe to use during pregnancy or while breast-feeding?

It is recommended to contact your doctor or dentist first during this time.

Can children use Pearl Drops 2 Day White?

The product is not suitable for children 12 years of age or less.
